

Payroc's Financial Tech Can Help Your Business Weather Covid-19

payroc

Build a custom website with full design support

We have an option that is mobile friendly, can take online orders, is easy to manage, and has no setup fees or contracts. We are waiving monthly fees and your website will be ready in about a week!

Next-day & same-day funding available

Our Same Day Money Express™ allows you to close batches well after business hours and still receive available funds. Your money will be available and ready for withdrawal by close of business on the same day.

Eliminate 60-90% of your credit card processing fees

Our point-of-sale and terminal technology automatically passes a "credit card charge" onto a credit card sale and lets businesses offset some or all of their processing costs. Plus, all new customers get a free mobile swiper for 60 days to take payments.

Reward your customers for paying cash & checks

We can drastically reduce your payment processing costs by 50-80%. Offsetting your cost allows you to put more to your staff, customers, marketing, and establishment.
